### **Acquisition of Land for Future Fire Station**

On Thursday, May 11, 2017, the Fort Lupton Fire Protection District is very pleased to announce that the District Board of Directors completed the closing for a land acquisition of 6 acres of vacant land located at 13050 CR 8 in Fort Lupton. This property is directly north of the Halliburton Facility and is served by city services. The property will be used for the future development and improvement of fire protection services in the fire district. The Board of Directors foresees the property as a strategic site, in terms of service to the community, for the next fire station. This location choice was derived in recommendations from our 2009 Master Plan. The station design and construction time frame has not been developed, but could potentially be considered within the next two to five years.

We are very happy to have worked with the Villano Brothers Properties Inc./Representatives and thank them for the business and community partnership.

If you have any questions, please contact Fire Chief Phil Tiffany at (303) 857-4603 or by e-mail at [ptiffany@ftluptonfire.com](mailto:ptiffany@ftluptonfire.com).
